WILL STILL CONTROL

Republicans Will Have a Working Majority in the House.

WIN IN THE WEST

The Dominant Party Have Made Tremendous Gain in a Number of the Commonwealths of the North and West.

Washington, Nov. 6.—Late returns show that the Republicans (including in this description the fusionists elected from the Pittsburgh-Allegheny districts in Pennsylvania) will control the next house by a vote of 204 Republicans and 179 Democrats, with one district. The Eighth Tennessee, and two California districts remaining so much in doubt that the official returns will be needed to decide the result. The totals given are believed to be correct, although there are a few districts, such as two in Colorado and one in Minnesota, where the Republican and Democratic party managers respectively do not concede defeat, but the general result can not be affected, even should their claims prove well founded.

RHODE ISLAND DEMOCRATS

They Elect Their Nominees for Governor and Lieutenant Governor.

Providence, R. I., Nov. 6.—Substantial gains for the Democrats are shown by the complete returns for the state ticket. They elected their candidates for governor and lieutenant governor and their congressional candidate in the First district, besides they cut down the Republican lead in the lower house of the legislature by securing thirty-six members as against a like number for the Republicans. The senate, however, remains overwhelmingly Republican.

CONTEST IN COLORADO.

The Republicans Will Seek to Unseat Democrats from Arapahoe County.

Denver, Col., Nov. 6.—The Times says: The Republicans are preparing to contest the election of the Democratic legislative ticket in Arapahoe county. They say the control of the lower house of the legislature depends on the result in this county. They will ask the secretary of state to refuse certificates to Democrats, and if Mr. Mills, who is a Populist, refuses to entertain the scheme, they are planning to organize a rump legislature.

Edward O. Wolcott is already informed of the situation and will come to Denver to enter the senatorial race against Teller.

PARDEE ELECTED.

Republicans Have Lost Two Congressmen in California.

San Francisco, Nov. 6.—Complete returns from San Francisco and partial returns from all over the state indicate that Geo. C. Pardee, the Republican nominee for governor is elected by a majority of 2000, or 3000. The plurality of 9000 given by San Francisco to F. K. Lane, the Democratic nominee, has been almost wiped out by Republican majorities in the interior counties. The Republican vote for Pardee in southern California is justifying the estimates of the Republican campaign committee and has undoubtedly elected Pardee.

San Francisco, Nov. 6.—Latest election returns indicate the success of Dr. Pardee, Republican candidate for governor, by a plurality of about 3500. His opponent, F. K. Lane, stated he would contest it. The count of the vote for congressional nominees so far completed indicates five Republicans, two Labor Union Democrats and one straight Democrat to represent California in the lower house of congress. With 19 holdover senators and 33 shortridge, the Republicans have 33 out of 40 members of the senate. With 58 Republicans in the assembly the party will have on joint ballot for election of United States senate 81 members out of a total of 120.

"Democrats Got Together."

New York, Nov. 6.—Senator Thos. C. Platt was asked for a statement on the state election. He said:

"We have to be satisfied. Odell's plurality is not nearly as large as I had expected."

Senator Platt said that in his opinion the trust question and the coal strike had nothing to do with the result of the vote.

"The Democrats got together," he said "and held together and a few Republicans slipped over to them."

The legislature, which will choose a United States senator, is largely Republican on joint ballot.

The Republicans have lost two congressmen, Kahn in the Fourth and Loud in the Fifth district.

The First and Second districts are still undecided, with a Democratic leaning.

Large Vote for Pennypacker.

Philadelphia, Nov. 6.—Practically complete returns from the state indicate a plurality for Samuel W. Pennypacker, Republican, for governor of about 135,000.

Of the thirty-two congressmen elected twenty-eight are Republican.

Topeka, Nov. 6.—The Republican victory in Kansas is complete. A good majority of the legislature, all the state officers and a large part of the county officers were taken by the Republicans.

about 135,000.

Of the 32 congressmen elected twenty-eight are Republicans. The incoming house of representatives will be made up of 157 Republicans and 47 Democrats and the senate will contain 33 Republicans and 11 Democrats.

Plurality Claimed by Dick.

Columbus, O., Nov. 6.—Chairman Dick of the Republican state committee has complete returns from 86 of the 88 Ohio counties showing a Republican plurality for state candidates of 90,807.

In Porto Rico.

San Juan, Porto Rico, Nov. 6.—Frederick de Gauto was elected resident commissioner at Washington by a large majority.

The Federals have 10 delegates in the legislature and the Republicans 25. In most of the turbulent departments and in Guayama, Carey, San Lorenzo, Albonito and others, the Federals, through intimidation abstained entirely from voting and lost five delegates to the legislature. Fraud was charged everywhere and the government has promised prompt prosecution.

Some Texas Results.

Galveston, Nov. 6.—In the Eighth congressional district returns from twenty-five towns have been received, which give Ball 5550 votes and McDaniel 2819.

Five-six towns have been heard from in the Ninth district, Burgess receiving 13,340 as against 7454 for Burrow.

Out of the nineteen towns heard from in the Fifteenth district Garner has received 10,442 and Scott 7077.

Talk of Contest.

New York, Nov. 6.—The defeat of Coler for governor in the face of the unprecedented Democratic majority in Greater New York is not accepted with good grace by the Democratic leaders. All sorts of fraud up the state are charged, and threats of a contest are rife and yellow extras were scattered broadcast Wednesday announcing that Coler had been elected.

Landslide in Montana.

Helena, Mont., Nov. 6.—Late returns indicate that Holloway, Republican, will have about 10,000 plurality, and Dixon (Rep.) for congress about 5000. There appears to have been a Republican landslide all over the state. The Republicans will have a safe working majority in the house, but on joint ballot the labor people will hold the balance of power.

Claimed by Both.

Guthrie, Okla., Nov. 6.—Both parties are still claiming the election of their respective candidates for delegate to congress by small majorities. The Republicans claim McGuire by 100 and the Democrats make the same estimate for Cross. The returns are coming in very slowly on account of the rain and bad condition of the roads, and the result is still in doubt.

Mickey Chosen Governor.

Lincoln, Neb., Nov. 6.—Complete returns from enough counties to accurately forecast the result shows that Mickey, Republican has been elected governor, by not less than 3000 and probably by 5000 plurality. The rest of the Republican state ticket is elected by an increased plurality.

New York's Official Figures.

Albany, Nov. 6.—The official plurality for governor in the various counties of the state as reported to Governor Odell by the county clerks officially, shows a total plurality for Odell of 135,972 and a total plurality for Coler of 123,085. Odell's plurality over Coler being 12,887.

Fusion Prevails in Nevada.

Reno, Nev., Nov. 6.—It is conceded that the fusion party has elected Sparks for governor. Van Dusen for congress and the entire legislature. Newlands will have clearly a two-thirds vote on joint ballot of the legislature for the United States senate.

Surpassed Expectations.

Cheyenne, Wyo., Nov. 6.—Republican majorities in Wyoming have surpassed all expectations. Mondell for congress will have 6000 majority. The entire Republican state ticket is elected by from 3000 to 5000. The legislature is overwhelmingly Republican.

Republican Congressman.

Sioux Falls, S. D., Nov. 6.—Reports from 37 out of 53 counties in the state give the Republican congressional ticket a plurality of 19,666. The remaining counties will increase this plurality by 2000.

Democratic Gains.

Trenton, N. J., Nov. 6.—The returns from New Jersey show Democratic gains, but the Republicans elected 7 of the 10 congressmen and retain control of both branches of the legislature although by reduced majorities.

How Delegation Stands.

Philadelphia, Nov. 6.—Practically complete returns from the state indicate a plurality for Sameul W. Pennypacker, Republican, for governor of about 135,000.

Of the thirty-two congressmen elected twenty-eight are Republican.

Topeka, Nov. 6.—The Republican victory in Kansas is complete. A good majority of the legislature, all the state officers and a large part of the county officers were taken by the Republicans.

A. AND M. COLLEGE NEEDS.

The board of directors of the A. and M. College have made their biennial report. The board strongly indorses the recommendations of Dr. Houston regarding the needs of the institution. Extensions are called for in the agricultural, veterinary and horticultural departments in equipment and additional instructors. It is desired to add a department of animal industry with a herd of animals for illustrating purposes. The pressing need for several more large dormitories is pointed out; also for the introduction of baths and modern sanitary arrangements in the dormitories now in use. Four or five residences are needed for members of the faculty, some of whom are now rooming at the mess hall. There is a growing demand for better barns, outhouses, roads, sidewalks and drains, all of which are in a crude condition. The most urgent single need set forth is for an engineering building for civil, railroad, sanitary and municipal engineering, drawing and architecture. A complete course in electrical engineering is also desired. Another instructor is wanted in the veterinary department; also a quarantine barn and pen for animals with contagious diseases. The report advises the establishment of a textile school in connection with the college; the continuation of the two sub-experiment stations already established and the establishment of another in the black land of north Texas.

These things are deemed absolutely essential to the welfare of the College, and the people of Texas should indicate to the legislature that liberality towards the A. and M. is one of the best and surest means of developing the state along industrial lines—and every thinking man knows this is Texas' greatest need at the present time.

AUSTIN MATTERS.

Austin, Nov. 6.—A serious collision of two freight trains occurred on the International and Great Northern about one mile from here. Fireman and engineer narrowly escaped death. The accident was caused by the explosion of an oil box on one of the engines.

The trains were going in opposite directions when the explosion occurred and the engine crashed into cars of the other train, wrecking several cars and badly demolishing one engine. About fifty yards of track were torn up. Fireman and engineer were only slightly injured.

STREAM OF LAVA SEEN.

New York, Nov. 6.—Dispatches from Chiclayo announce that the captain and officers of the steamship Malpico declare, says Herald dispatch from Lima, Peru, that on the night of Nov. 1, shortly after leaving Chimbote, they saw what apparently was a stream of lava flow from a peak in the Cordilleras toward the plain. According to the latitude and longitude given the volcano evidently is near the town of Recuay. The vessel's trip northward enabled the ship's company to witness the eruption for twenty minutes, and then other mountains closed the view.

MANY INVITATIONS TO DINE.

New York, Nov. 6.—Colonial Secretary Chamberlain is overwhelmed with invitations to farewell dinners and luncheons, but is begging off, cables the London correspondent of the Tribune, under the plea of having work in preparation for his journey and mission to South Africa. Always a persistent and systematic worker, he is calling upon the clerical force in the colonial office for precise information respecting the long series of African questions, so that he can be ready to discuss every matter brought to his attention.

MILITARY PROTECTION FURNISHED.

Manila, Nov. 6.—As the result of the killing of an American bartender near Armitage, who was shot Tuesday by a native policeman who had quarreled with him, the governor of the province has requested General J. Phoenix, Ariz., Nov. 6.—The election of a delegate to congress from Arizona is still in doubt. Whether Republican or Democratic, the majority will probably be less than 300.

REPORT OF GEN. MILES

It is a Review of the Various Commanders of Departments.

PROUD OF THE MEN

He Says the Personnel of the Soldiers and Officers Has Materially Improved Both Intellectually Physically as Fighters.

Washington, Nov. 6.—The annual report of Lieutenant General Miles, commanding the army, is a brief review of the reports submitted to him by other officers. He endorses the recommendation of General Brooke for the readjustment of the geographical limits of the different departments with a view of equalizing conditions. General Miles calls attention to the necessity for quarters for troops, saying while hundreds of thousands of dollars are being spent for quarters for the cavalry, very little is being used to afford shelter for the artillery, which is exposed to severe climates along the coasts. "These troops," says General Miles, "are required to be located adjacent to fortifications, notwithstanding the exposed position of many of them, and I see no reason why buildings should not be properly constructed in time to be occupied when known for years exactly where and when they be required. I also call attention to incomplete condition of fortifications, especially on the Pacific coast, where millions of dollars have been expended in engineering and ordnance work, and the commands have not been properly supplied with ammunition, electrical plants and other appliances essential to the effective use of these fortifications in actual warfare."

General Miles says: "During the past year there have been no serious engagements except under General Baldwin in Mindanao, P. I., with Moros.

"Conditions of the Indians are quite satisfactory, and there has been no disturbance of importance among them during the last twelve months. Experience during the great Civil war, and years of campaigning along the eastern frontier, afforded the best schools of practice for our army in former years. The attention given to callisthenics, gymnastic and military exercises made our small army corps athletes, while the elementary schools established for enlisted men, post libraries, post lyceums and officers' schools, the various schools of instruction and practice for officers, as well as the military academy, produced in the army much excellence. In my annual report for 1896 I stated: 'Personnel of war army never in better condition.'

"This has been proven to be true by fortitude, skill and heroism displayed in every serious campaign, on every field of mortal combat wherever the army has been engaged in any part of the world during the last four years. During that time many changes have occurred and the army has been very largely increased. Long and varied service of the officers, their experience, organization, discipline, instructing and leading their commands, well excellent discipline, instruction and exemplary conduct of officers in 1898 has been the leaven of the army of the present time. Evils that may creep into any system or great organization such as affected our army have been or will be eradicated."

ELECTION COMMENT.

London Papers Consider Result a Triumph for the President.

London, Nov. 6.—In the press, in editorial articles, the opinion is unanimously expressed that President Roosevelt largely owes his personal triumph to having satisfactorily ended the coal strike, that the future depends on whether the leaders of one party or the other have a definite policy and that, for the outside world, the important point is a prospective reduction of the tariff.

The Standard says the voting shows President Roosevelt to have a commanding position in the confidence of his countrymen.

The Times says: President Roosevelt's influence is in no way impaired by the warnings which the Republicans have given his party. The prediction of his renomination for the presidency in 1904 may be rash but it undoubtedly represents the prevailing sentiment of the country. His proposal of a tariff revision commission or something equivalent is likely to be adopted by the party wire pullers to save their own credit and secure victory in 1904.

It is discreditable and even disquieting to discover that Tammany Hall, so often reported struck down with a mortal blow, is more vigorous and aggressive than ever.

MASON'S STATEMENT.

Says That New York Democrats Neither Concede Nor Claim Anything.

New York, Nov. 6.—John A. Mason, secretary of Democratic State committee, said: "There is nothing of new to add to our position. We neither concede nor claim anything. We are receiving official returns gradually. Until we know something official, we cannot say a word. There are circumstances connected with the election that we are now looking into that we may not be through when we have full returns in."

"What are the circumstances?" Mr. Mason was asked.

"Well, the matter of defective ballots and protests and some others I'm not ready to mention." "If official returns justify our suspicions," Mr. Mason said, "we would go before county canvassers in counties up state when they meet on Tuesday next. The next step would be to appeal to the state board of canvassers if we considered that justice was not being done us, and after that we would have to go to the courts. Of course, I am not saying that we will have to do this. That is only modus operandi if we justified making the contest."

Democratic headquarters say the election of Cunneen, Democrat, for attorney general is assured.

Does Not Concede Defeat.

San Francisco, Nov. 6.—Chairman Caminetti of the Democratic state committee, said:

"I do not feel warranted on the face of the returns in conceding the election to Pardee. I am convinced that over 3000 ballots were excluded by the Republican boards of election on account of the cross mark stamped opposite the words, 'No nominations.' The matter will be submitted to our law committee."

Democrats Have Legislature.

New York, Nov. 6.—Congressman Overstreet, secretary of the Republican congressional committee, stated that 206 Republican members have been elected beyond all doubt, the Democrats elected 150 and there are 10 districts doubtful. With 206 members in congress the Republicans will have a majority of 26. Congressional committee headquarters in this city will be closed at once.

Claimed by Democrats.

Phoenix, Ariz., Nov. 6.—Chairman Webb of the Democratic central committee claims the election of Wilson for delegate to congress by 500 majority. Republican Chairman Nicholas makes no statement.

Corrected Returns.

New York, Nov. 6.—Corrected returns received from the state up to Thursday morning make O'Dell's plurality 11,262.

Fashionable Wedding.

MAY BE INNOCENT.

The Gold Watch of Miss Morton Sold to a Pawnbroker by a Negro.

Boston, Nov. 6.—The gold watch of Clara Morton, the McLean hospital domestic who was killed Nov. 1, and for whose murder Allan G. Mason was charged was found in a Boston pawnshop, and the police are searching for a negro who is said to have sold the article. Chief of Police Watts does not conceal the belief that this party murdered Miss Morton and that Mason, who is now in jail, is innocent.

As there have been a number of assault cases in this city in which the principal was described as a negro, Chief Watts considered this new phase of the Waverly affair very important. He said: "This lets Mason out of it altogether." Chief Watts said he was using every resource of the police department to locate the negro and expressed the confidence that he will be caught within forty-eight hours.

SERVANT GIRLS.

Latest Suggestion of Solution of Problem Emanates at Chicago.

Chicago, Nov. 6.—The latest suggestion for the solution of the servant girl problem is embodied in a plan that has just been adopted at a meeting of the Chicago Housewives' association. According to this plan serving maids may hereafter be obliged to hold diplomatic issue by the association in order to secure positions in the homes of members of the organization. The rules regulating the granting of the diplomas are to be definite. The formal testimonials will be granted to a maid only after she has been in one family for a year and has performed her duties with a certain degree of proficiency. Real parchment will be used and the holders will be described as "satisfactory," "good," or "remarkably efficient."

Graduate "cooks," "waiting maids," "ladies maids," and "laundresses" will be the classes of household servants.

GO TO THEIR HOMES.

The Anthracite Coal Commission Have Entered upon Their Recess.

Mahoney City, Pa., Nov. 6.—After a good night's rest Wednesday night the members of the arbitration commission have left here for their homes. Commissioner Watkins, who lives at Scranton, and Bishop Spalding left for that city. Bishop will be the guest of Bishop Hogan, while he is in Scranton. The other commissioners went to Pottsville on special train. The stop of a couple of hours was made here, after which the special left for Washington via Philadelphia, by way of Harrisburg. Commissioner Parker goes to New York from Philadelphia, Chairman Gray dropped off at his home, Wilmington, Del., and General Wilson, Recorder Wright, Assistant Recorder Moseley Neill and the stenographer went to Washington. At the national capital, Colonel Wright will carry on the business of the commission. He will there receive statements of the anthracite coal companies in reply to that of President Mitchell, representing the miners.

Palmer, president of the Nashville Baseball association and chairman of the so-called "harmony" committee appointed at the Southern League meeting held in Little Rock recently, accompanied by Newt Fisher, manager of the Nashville team, arrived in Memphis and immediately went into a secret meeting with representatives of the Memphis club. Manager Frank of the local club stated before the meeting that he was willing to entertain any proposition looking to a settlement of the present controversy, but that he wanted it understood that no settlement could be reached unless ample satisfactory provisions are made for cities that have signified their intention of joining the new league.

FRISCO STOCK SOLD.

According to the New York Herald a Large Block Changed Hands.

New York, Nov. 6.—James Campbell of St. Louis and B. W. Yeakum, president of the St. Louis and San Francisco Railroad company, have completed a deal with the banking house of J. and W. The deal involves the purchase of a large block of common stock of the Frisco, and its successful termination, it is stated, places the property in the absolute control of St. Louis capitalists.
